## Introduction

In presenting this, our first issue of the Ames City Directory to the public, we do so feeling that our efforts to give the business men of Ames an accurate directory is appreciated.

We believe this work will be found to maintain the standard that we have aimed to attain in all the past books we have published in Iowa.

Every care has been taken to make this volume as accurate as is possible. All information has been gathered by personal canvass of Ames.

We wish to thank the people of Ames for the courtesy extended us while gathering the information for this directory.

# Statistical Summary

Ames, Iowa

Form of Government.....	Mayor-Council
Population (1930 Census).....	10,261
Area.....	5 1/4 square miles

United Brethren Church—S. Kellogg Ave. and S. Second.

## Iowa State College

Ames, the home of Iowa State College, is a town of 10,261 people, covering an area of five and one-quarter square miles. Ames is reached by the main line of the Chicago & Northwestern Railway and by the Fort Dodge, Des Moines & Southern, and is on the Lincoln and Jefferson Highways.

The college was established seventy-two years ago. Today it ranks with the great institutions of this country. The land, buildings, and equipment have a value of almost \$10,000,000.

The college offers instruction in five different divisions—agriculture, engineering, home economics, industrial science and veterinary medicine. Four-year, five-year and six-year collegiate courses are offered in the different divisions of the college. Non-collegiate courses are offered in agriculture and industrial arts. Summer sessions include graduate, collegiate and non-collegiate work. Short courses are offered in the winter. Extension courses are conducted at various points throughout the state. Research work is conducted in the Agricultural and Engineering Experimental Stations and in the Veterinary Research Laboratory.

As they drive along the Lincoln Highway, thousands of tourists each year, are attracted by the beautiful campus of Iowa State and stop to see the fine buildings, spacious grounds and other equipment. Often it is called, "the most beautiful campus I have ever seen!" One hundred and twenty-five acres have been made into a vast garden, dotted with beautiful buildings. About the central plaza are grouped in a great rectangle the main buildings of the college, constructed of white stone, classic in their architecture. About them in turn are some seventy other buildings housing the many activities of Iowa's great technical school.

is as nearly correct as it is humanly possible to make it. No expense has been spared in its making and if errors are found we would appreciate having them called to our attention so that they may be corrected in the next edition.

Directory Service Co., Publishers

## WHO SELLS IT?

*Is answered by the Classi-  
fied Business Lists in this  
Directory.*

**TRADE!** You like  
to patronize those concerns  
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?
